

# VILLAGE OF PLAINFIELD

## OLD TOWN SOUTH NEIGHBORHOOD IMPROVEMENTS

The Village of Plainfield began a multi-phase and multi-year improvement project of the **Old Town Neighborhood**, generally located east of IL Route 59 from Main Street south to Lake Renwick, in 2021. The first phase of the project included rehabilitating existing sanitary sewer mains and services and sanitary sewer cleanouts for each property. This work has been completed for the entire neighborhood, both north and south of Lockport Street. The following phase of construction focused on the area along Lockport Street and northward (**Old Town North**) and was completed in 2025. The scope of work consisted of utility improvements (water main replacement, water service replacement, and drainage improvements) and full roadway reconstruction.

The Village is currently working with Strand Associates to prepare preliminary design engineering for the area south of Lockport Street (**Old Town South**). The Old Town South Neighborhood Improvements will include work on water distribution, stormwater management, roadways, sidewalks, street lighting, and accessibility.

**Old Town South Project Location Map**

The scope of work for the water system improvements includes installation of new water mains, water main valves, and fire hydrants; replacement of water services from the main to customer shut-off valves in the parkway, and complete replacement of lead water services from the water main into the house. Drainage improvements include stormwater runoff conveyance and capture enhancements.

Once the underground infrastructure improvements are complete, the Village intends to reconstruct roadways within the right-of-way, provide additional pedestrian accommodations including ADA-compliant curb ramps, and install street lighting. A multi-use path through Turtle Lake Preserve, and along local streets, will add pedestrian connectivity and preserve access.

Please visit the Village website and subscribe to e-News for project updates. **A Public Information Meeting Open House for the project will be held on May 6<sup>th</sup>, 2026, from 5pm-7pm, at Village Hall, in Community Room A (24401 Lockport Street, Plainfield, IL 60544).** Please feel free to attend, see exhibits and details of the proposed improvements, and provide feedback.
